If you're a vegan in New York, you need SuperVegan and SuperVegan needs you!

- Look up vegan-friendly restaurants and cafés in our amazing Google-map powered guide. Search by zip code, cuisine (burgers? dim sum? Korean? pizza?) or zillions of other options.
- Leave reviews and ratings. Give props to your favorites and complain about the losers who *still* have casein in their soy cheese and can't foam soy milk or make a salad without bacon.
- Our blog has all the latest dish on restaurant openings, exciting new products, and how the transfat ban will ruin your morning bagel.

- Voted **Best New Website** by VegNews: "One thing's for sure about this site—its name does not deceive."
